

## **Key messages for summarising the learning at the end of the day**

- Seek an indication of a young person's eligibility for adult social care funding early (at 16 at the latest)
- Seek an indicative budget early – by 16 – so people can develop support plans
- Build these steps into the transition pathway
- Plan for employment. This means:
  - Profile building in school (an ongoing CV )
  - career planning and work experience
  - Using individual budgets for job coaching /employment support
- Get leaders/strategic planners thinking about how resources are being used
- Identify duplication and things that are not effective
- Make better use of resources!
- Inform families and young people know about personal/individual budgets and where to get support to develop a plan
